This Disclosure Brochure provides information about the qualifications and business practices of SVA Wealth Management, LLC. If you have any questions about the contents of this Brochure, please contact us at (608) 824-8800. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission (SEC) or by any state securities authority.

SVA Wealth Management, LLC is a Registered Investment Adviser. Registration of an Investment Adviser does not imply any level of skill or training.

Additional information about SVA Wealth Management, LLC also is available on the SEC's website at www.adviserinfo.sec.gov.

ITEM 2 – Material Changes

Please see the following summary of material changes made to our Brochure (Form ADV Part 2A) since our last annual update on August 23, 2018:

Affiliated Entities

- Effective April 1, 2019, Thomas Plumb, TGP, Inc., Wisconsin Capital Management, LLC (“WisCap”) and the Plumb Funds are no longer affiliated with SVA Wealth Management, LLC (“SVA WM”) due to Mr. Plumb’s retirement from the firm. Updates were made throughout the Brochure to remove reference to these individual(s) or entities.

Item 4

- This item was updated to reflect SVA WM’s ownership change and name change from SVA Plumb Wealth Management, LLC to SVA Wealth Management, LLC effective April 1, 2019. Diversified Services of Wisconsin (“DSW”) is now the sole owner of SVA Financial Group, LLC, which owns SVA WM.

Item 5

- This item has been updated to modify language about 12b-1 fees associated with the use of the Plumb Funds by an affiliate.

Item 8

- This item has been updated to modify conflict of interest language about use of the Plumb Funds in client accounts.

Item 10

- This item has been updated to remove language about the Plumb Funds and any conflicts pertaining to Mr. Plumb and the Plumb Funds’ affiliation with SVA WM.

Item 11

- This item has been updated to remove mention of the Plumb Funds and any conflicts pertaining to Mr. Plumb and the Plumb Funds’ affiliation with SVA WM.

Item 12

- This item has been updated to remove mention of the Plumb Funds and any conflicts pertaining to Mr. Plumb and the Plumb Funds’ affiliation with SVA WM.

ITEM 4 – Advisory Business

SVA Wealth Management, LLC (“SVA WM”) is a Registered Investment Adviser with the U.S. Securities and Exchange Commission (“SEC”) under the Investment Advisers Act of 1940. Registration of an Investment Adviser does not imply any level of skill or training.

The firm was originally founded as SVA Planners, Inc. in 1987 and became known as SVA Wealth Management, Inc. in January 2007. On March 1, 2011, SVA Wealth Management, Inc. reorganized and changed its name to SVA Plumb Wealth Management, LLC. On April 1, 2019, SVA Plumb Wealth Management, LLC changed its name to SVA WM.

SVA WM is owned by SVA Financial Group, LLC (“SVA FG”, formerly SVA Plumb Financial, LLC). SVA FG is owned by Diversified Services of Wisconsin, Inc. (“DSW”) which is owned by numerous shareholders of SVA Certified Public Accountants, S.C. (“SVA CPA”) or an affiliated subsidiary.

SVA WM provides investment management, financial planning, retirement plan services, and investment consulting services for clients. The clients of our firm who entrust us with their assets include a wide range of individual clients, high net worth individuals, pension and profit sharing plans, banking and thrift institutions, trusts, estates, charitable organizations, as well as corporations and businesses. Clients may receive any combination of these services.

INVESTMENT MANAGEMENT SERVICES

SVA WM evaluates a wide array of financial alternatives and recommends services designed to best meet client financial goals and objectives. Generally, clients allow SVA WM full discretion to make investment decisions on their behalf within agreed-upon parameters, although SVA WM will consider a non-discretionary arrangement under certain circumstances. SVA WM services may apply only to assets directly managed by SVA WM, or in some cases also include summary reporting and/or oversight of all investable assets of SVA WM clients, even if they are managed by other entities, including other investment advisers.

At the time of engagement, through personal discussions, a wealth consultant or other licensed representative of SVA WM reviews each client’s financial assets, investment goals, objectives and risk tolerance based on the client’s particular circumstances, to develop a diversified investment strategy. From this initial overview, SVA WM’s representative and the client develop specific objectives and guidelines for SVA WM to follow while managing the client’s portfolio. Clients may impose restrictions on certain assets or certain types of assets and those restrictions are duly noted during the investment process.

SVA WM then exercises discretion to select the securities, amount of securities to buy or sell, and when to buy or sell them. Our investment recommendations are not limited to any specific product or service offered by a broker-dealer or insurance company. SVA WM’s Investment Committee oversees investment allocations and specific securities utilized in our models and client portfolios. Client portfolios may consist of managed mutual funds, exchange-traded funds and notes (“ETFs and ETNs”), variable annuities, life insurance, and individual securities including equities, debt securities and such other securities that we select, unless expressly limited by written direction or client guidelines.

The Investment Committee is an in-house team of portfolio managers that constructs and monitors investment models. The investment models are diversified across various investment vehicles, styles and strategies, and consist of any combination of securities, including mutual funds, ETFs, individual equity and fixed income securities, and/or other investments. Based on the client's investment objectives, risk tolerance, investment time horizon, and restrictions, the SVA WM representative constructs a customized investment portfolio, utilizes one of the models developed and managed by the Investment Committee, or implements any combination thereof. Clients receive information about investments and activity in their managed accounts from SVA WM no less than quarterly, unless otherwise directed.

On occasion, SVA WM recommends a client engage a third-party manager to manage a portion of the client's portfolio, typically when such manager demonstrates knowledge and expertise in a particular investment strategy. Based on the client's individual circumstances and needs, SVA WM will determine whether to recommend a third-party manager and which firm to recommend. Factors considered in making this determination include the account size, risk tolerance, and the investment philosophy of the selected registered adviser.

SVA WM conducts due diligence on third-party managers it recommends to clients, making reasonable inquiries into their investment process, performance calculations, policies and procedures, and other operational and compliance matters. We encourage clients to review the third-party manager's Form ADV Part 2A. SVA WM will monitor the performance of the selected third-party manager. If we determine the third-party manager is not providing sufficient management services to the client, or is not managing the client's portfolio in a manner consistent with the client's objectives, we may terminate the client's contract with the third-party manager.

SVA WM does not offer any products or services that guarantee rates of return on investments for any time-period to any client. All clients assume the risk that investment returns may be negative or below the rates of return of other investment advisers, market indices, or investment products.

COMPREHENSIVE FINANCIAL PLANNING SERVICES

SVA WM also provides financial planning advice. Clients utilizing this service will receive a written financial plan designed to provide information to help the client achieve their stated financial goals and objectives. In general, the financial plan addresses the following topics:

- Personal cash flow - income, outflows, and budgeting.
- Risk management - cash needs at death, income needs of surviving dependents, estate planning, disability income analysis and personal liability.
- Taxes - income tax considerations for past, current, and future years.
- Education funding - analysis and projections of future income needs to fund education expenses.
- Retirement - analysis of investment alternatives and their effect on a client's portfolio.
- Investments - analysis of risk tolerance and investment strategies and their effect on a client's portfolio.

Should a client choose to implement the recommendations contained in the plan, SVA WM suggests the client work closely with his/her attorney, accountant, insurance agent and/or stockbroker. SVA WM's involvement in implementation of financial plan recommendations is entirely at the client's discretion.

LIMITED FINANCIAL PLANNING SERVICES

SVA WM also provides financial planning and/or investment advice on a more limited basis. This may include advice on an isolated area(s) of focus such as education funding, estate planning, retirement planning, or any other specific topic. SVA WM's involvement in implementation of financial plan recommendations is entirely at the client's discretion.

RETIREMENT PLAN SERVICES

SVA WM's retirement plan services are broadly comprised of three areas: 1) investment management; 2) plan sponsor advisory services; and 3) plan participant education and enrollment. The services SVA WM provides in each area depends on the unique facts and circumstances of each client, the features of their retirement plan and the demographics of plan participants. Services include, but are not limited to: recommendations regarding design and establishment of plan structure, custodian, record keeper and third-party administrator, and investment selections. In addition, SVA WM facilitates plan sponsor and/or trustee meetings, delivers educational meetings regarding initial enrollment and how to fully utilize the plan and investment alternatives available and provides transfer and rollover assistance to our client's employees. We can also help create and maintain the Investment Policy Statement (IPS) and offer plan fee analysis on an annual basis.

We rely on the plan sponsor or trustee to provide accurate and current information, including material information affecting investments and planning strategies to enable us to provide this service.

NON-DISCRETIONARY INVESTMENT MANAGEMENT SERVICES

SVA WM occasionally provides investment advice, recommendations and non-discretionary investment management for some retirement plans and corporate clients who wish to retain management control and investment discretion on their investment accounts. These services are negotiated on a case-by-case basis.

OTHER INVESTMENT CONSULTING SERVICES

SVA WM also provides specific consultation and administrative services regarding investment and financial concerns of the client as needed.

WRAP ACCOUNT ADVISORY SERVICES

SVA WM provides advisory services to a client in a wrap fee program sponsored by an unaffiliated bank or broker-dealer ("wrap fee sponsor"). The investment strategies that we use in managing client portfolios in a wrap program are similar to those offered to our investment management clients. In a wrap fee program, the wrap program sponsor charges its clients a bundled fee for an array of investment services, such as brokerage, advisory, research, custody and management services. SVA WM receives a portion of the bundled fee for its investment management services. Clients participating in the wrap fee program are invoiced directly by the wrap program sponsor.

ASSETS UNDER MANAGEMENT INFORMATION

As of June 30, 2018, SVA WM had the following assets under management and total number of accounts:

	<u>U.S. Dollar Amount</u>	<u>Total Number of Accounts</u>
Discretionary:	\$2,571,702,447	4,815
Non-Discretionary:	\$30,619,024	34

ITEM 5 – Fees and Compensation

SVA WM negotiates fee schedules based upon various factors, such as the overall complexity of the services provided. We also negotiate the fee structure utilized and may agree to a fixed fee arrangement in limited circumstances. SVA WM has multiple fee schedules in effect which may be lower or higher, as the case may be, than those disclosed below. The assets of accounts which have a family or business relationship to each other are generally aggregated for purposes of determining the percentage fee applicable to each account. SVA WM maintains investment, trade allocation and account valuation policies and procedures designed to address potential conflicts of interest related to the fact that different clients pay different fees.

FEES - INVESTMENT MANAGEMENT SERVICES

SVA WM generally prefers to manage accounts with minimum investable assets of \$250,000; however, account minimums are subject to negotiation. Fees are payable quarterly in advance or in arrears, as dictated by the individual investment management agreement, and are subject to change at SVA WM's discretion. Asset-based fees are based upon the total market value of assets under management on the last business day of each billing quarter (payable in arrears) or the last business day of each previous billing quarter (payable in advance) and based upon the following standard schedule:

Assets under Management	Annual Fee*
First \$1,000,000	1.00%
Next \$1,000,000	0.90%
Next \$2,000,000	0.80%
Next \$1,000,000	0.70%
Over \$5,000,000	0.60%

*Subject to a minimum quarterly fee of \$625, or \$2,500 annually.

When clients place restrictions on certain assets, SVA WM will ask for those restrictions to be put in writing and SVA WM may charge a lower fee on those assets than those disclosed above or no fee at all depending upon the services provided related to such assets.

For a limited number of clients SVA WM provides summary reporting and/or oversight of all investable assets, some of which are not directly managed by SVA WM. The fees for this service are negotiable.

FEES RELATED TO THIRD-PARTY MANAGER

When we recommend a portion of a client's account be managed directly by a third-party manager, we charge our management fee on those assets in addition to the fees charged by a third-party manager. Clients should refer to the selected registered adviser's Form Part 2A for information regarding advisory fees charged.

FEES - SERVICES BY AFFILIATES

Some clients may also use the accounting services of SVA CPA, an accounting firm affiliate, and have SVA WM pay for such services out of their management fee paid to SVA WM. A client that utilizes these services must meet certain criteria in order for SVA WM to pay for such services. The fee for the advisory services and accounting services will be computed using the asset-based fee schedule shown above and is payable quarterly, either in advance or arrears, depending on the terms of the investment management agreement.

From this asset-based fee, SVA WM pays SVA CPA an annual fee, which is equal to 70% of the SVA CPA realization, but will not exceed \$2,500 annually per client. If the fee SVA WM pays SVA CPA reaches the annual maximum of \$2,500, SVA CPA, at its discretion, may bill the client for fees exceeding the annual maximum. Client(s) are free to terminate the investment management services of SVA WM and continue with the accounting services relationship of SVA CPA.

Clients should be aware that when the accounting services of SVA CPA are recommended, SVA WM and other individuals associated with SVA WM do not evaluate similar accounting or other services, which may be available to the client from other providers, nor does SVA WM supervise, evaluate, or monitor those services on behalf of the client.

When accounting or trust services are provided by affiliates, SVA WM will communicate financial or other information about the client directly to those affiliates to the extent that such information is available to SVA WM. The affiliated service providers also may contact the client directly to obtain initial and follow-up information from the client. There is no restriction on the ability of any client to contact or consult with affiliates performing accounting or trustee services.

FEES - COMPREHENSIVE FINANCIAL PLANNING SERVICES

Fees for financial planning services and the preparation of a full financial plan are individually negotiated and subject to a minimum fee of \$1,500.

FEES – LIMITED FINANCIAL PLANNING SERVICES

Fees for limited financial services are generally charged on an hourly fee basis and are determined on a case-by-case basis, based on the level of expertise and sophistication required to deliver such a plan. SVA WM charges an hourly fee of \$150 to \$350 per hour, with a \$1,500 minimum fee for an initial consultation and follow-up summary. SVA WM reserves the right to waive this minimum fee on a case-by-case basis.

FEES - RETIREMENT PLAN SERVICES

Fees for retirement plan services charged to each client will be determined with the client and detailed in the agreement for services. Fees for retirement plan services shall not exceed 1.00% annually of the plan's total market value. In certain cases, we negotiate a flat fee arrangement.

In those instances where services are provided to a group of retirement plan participants on a negotiated flat-fee basis, the fee rate is applied to the aggregate value of all accounts as of December 31 of each year. Each participant is then responsible for paying a pro-rata share of the fee based upon account

value. Participants should be aware that such a formula could result in large increases in fees due to fund withdrawals and participant departure.

FEES - NON-DISCRETIONARY INVESTMENT MANAGEMENT SERVICES

Fees for such services generally follow the Investment Management Services fee schedule outlined above, although in certain cases we negotiate a flat fee arrangement.

FEES – OTHER INVESTMENT CONSULTING SERVICES

Fees for such services are individually negotiated, outlined within the individual investment consulting agreement and may include asset-based, flat or hourly fees.

FEES RELATED TO WRAP ACCOUNT MANAGEMENT SERVICES

SVA WM's fee for wrap account management services generally ranges from 0.50% to 1.00% per year and is payable in accordance with the agreement entered into between SVA WM and the wrap fee program sponsor.

FEES - MISCELLANEOUS

Clients may elect to be billed directly for fees or to authorize SVA WM to directly debit fees from client accounts.

Either the client or SVA WM can terminate the investment management agreement upon written notice, as outlined within the investment management agreement. In the event of termination for accounts in which fees are paid in arrears, any fees due are calculated on a pro-rata basis from the end of the last completed quarter to the date of termination and are automatically deducted from the client's custodial account or billed to the client. In the event of termination for accounts in which fees are payable in advance, all fees paid in advance, but not earned, are prorated to the date of termination and returned to the client. Termination of an investment management agreement by a client will not affect transactions that SVA WM initiated on the client's behalf prior to the effective date of such termination.

All fees paid to SVA WM are separate from the expenses charged by mutual fund companies to shareholders of such fund shares. Depending on the fund and their share class offering, a client may be able to invest directly in a fund without incurring any sales or advisory fees. A complete explanation of expenses charged by the fund is contained in each fund's prospectus. Such charges, fees and commissions are exclusive of and in addition to SVA WM's fee, and SVA WM generally does not receive any portion of these commissions, fees, or costs with the exception of a 12b-1 fee received by SVA Plumb Trust Company, LLC for SVA WM clients' investments in the Plumb Funds, which are managed by a formerly affiliated investment adviser. Refer to Item 8 for further disclosure related to conflicts of interest related to the receipt of these 12b-1 fees.

SVA WM's fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses, which are charged by the custodian and incurred by the client directly. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as fees charged by managers, custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions.

Item 12 describes the factors that SVA WM considers in selecting or recommending broker-dealers for client transactions and determining the reasonableness of their compensation (e.g., commissions).

An unaffiliated third party provides class action administration services on behalf of certain SVA WM clients. The firm generally deducts fees for services provided directly from the class action proceeds as outlined in the agreement, however, in some instances the firm charges a flat fee. SVA WM may cover or reimburse these fees for certain clients.

VALUATION PROCEDURES

SVA WM receives pricing information from client custodians (SVA WM's "Primary Pricing Source") and ranks the custodians based on total SVA WM client assets to determine which custodian price to use for valuing client portfolios for investment performance and fee calculation purposes. In cases where the Primary Pricing Source does not provide a price for a security, SVA WM will generally use a price provided by an outside pricing service ("Secondary Pricing Source").

In the rare instance where the Primary Pricing Source or Secondary Pricing Source is unable to obtain a price, where SVA WM strongly believes the Primary Pricing Source or Secondary Pricing Source is not pricing a security fairly, or where a security has halted trading, SVA WM's Valuation Committee will determine a fair value for the security based on the firm's knowledge of the security, current market conditions, and any other considerations deemed appropriate. No single factor or approach will be implemented by SVA WM in every case of determining a fair value for a security as each individual case is unique in nature. SVA WM's objective in determining a fair value price will be to determine a price SVA WM believes it could reasonably receive upon a current sale.

ITEM 6 – Performance-Based Fees and Side-By-Side Management

SVA WM does not charge any performance-based fees (fees based on a share of capital gains or capital appreciation of the assets of a client).

ITEM 7 – Types of Clients

We provide investment management, financial planning, retirement plan and consulting services to individuals, high net worth individuals, banking and/or thrift institutions, pension and profit sharing plans, trusts, estates, charitable organizations, corporations and other business entities. SVA WM's individual clients include retirement plan participants whose retirement plan assets are managed on either a group or an individual basis. SVA WM may reject or terminate a client if substantial investment restrictions imposed by a client prevent implementation of a consistent, long-term investment program. Please see Item 5 for information regarding our account minimums.

SVA WM manages accounts for SVA WM employees and their families. These accounts are considered client accounts, pay a discounted investment management fee, trade along with other client accounts, and receive standard client reporting. SVA WM maintains trading policies and procedures designed to address conflicts of interest associated with these accounts and ensure that all client accounts are treated fairly over time. Please see Item 12 for further disclosure of SVA WM's trading practices.

ITEM 8 – Methods of Analysis, Investment Strategies and Risk of Loss

SVA WM strives to provide solid long-term investment returns through a combination of capital appreciation and current income. Clients rely on SVA WM to manage their assets and minimize portfolio volatility through market fluctuations.

In its selection process, SVA WM seeks diversification through investment instrument diversification, as well as by asset class, geography, capitalization, and industry. SVA WM asset allocations are generally based on a proprietary methodology, including model portfolios recommended by our Investment Committee, and customized based on the client's investment restrictions and risk tolerance. SVA WM works closely with clients to develop and tailor individual portfolios to the clients' financial objectives and risk profile.

Portfolios managed by SVA WM may consist of mutual funds (including interval funds, ETFs, ETNs, and individual securities including equities, debt securities, cash equivalents, American depository receipts and/or real estate investment trusts ("REITs")) to diversify exposure to particular market segments when appropriate. The aforementioned securities serve as core holdings around which SVA WM may add complementary assets, depending on client objectives.

INVESTMENT PROCESS

The SVA WM Investment Committee meets routinely to research, develop and monitor the overall investment strategies and models implemented in client portfolios. SVA WM uses various quantitative tools to research investment options, while members of the Investment Committee continually monitor various academic and industry publications to identify trends and new products. The SVA WM Portfolio Management Committee assists the Investment Committee in the implementation of recommended model changes and provides oversight of client accounts by regularly reviewing asset class exposures, risk tolerance parameters and periodically reviewing performance variances.

SVA WM Wealth Consultants work closely with their clients to develop portfolios best suited to meet the clients' objectives and consult with clients through SVA WM's investment process to form and maintain investment portfolios. Together, the client and Wealth Consultant define goals and objectives as well as determine the client's comfort with various levels of market volatility and asset quality.

Once the basic investment objective is determined, the Wealth Consultant will formalize it in an Investment Policy Statement ("IPS"). The Wealth Consultant generally implements one of the various model portfolios to fit the client's goals, taking into consideration legacy holdings which are not in the selected model but might be in the client's best interest to continue to hold, client specific requests, and the time needed to transition from existing holdings to model holdings. Use of the investment models allows the Wealth Consultant the benefit of drawing upon the resources provided by the Investment Committee, including developed investment philosophies and a disciplined due diligence process, to select portfolio recommendations. SVA WM will periodically rebalance the client's investment portfolio to conform to the asset allocation and risk tolerance guidelines accepted by the client. In consultation with the client, the SVA WM Wealth Consultant will review each client's portfolio to determine whether investment policies, model selections, or risk and return objectives need revision as a result of changes in the client's financial circumstances. Wealth Consultants will continue to monitor the investments, in

conjunction with the Portfolio Management Committee, and meet with clients to review the portfolio and to determine whether changes are necessary or advisable.

INVESTMENT STRATEGY FOR MUTUAL FUND MODELS

Clients may consider mutual fund models because they offer greater diversification and allow for use of asset specific managers such as international, small cap and fixed income. Investment models are created to achieve diversification and constructed so individual components of the model will complement the overall model's objective. SVA WM chooses funds from a wide assortment of funds available via the respective platforms maintained by the client's qualified custodian (for example, Charles Schwab Trust Company or institutional trading platforms). For many employer sponsored retirement plans, the investment options available to participants may be limited by choices previously made by the employer. Mutual fund and exchange-traded fund selection criteria generally include: consistency of performance vs. peer group; risk adjusted performance; consistency and longevity of management team; consistency of management style and avoidance of style drift; tax efficiency; and fund expenses.

Certain SVA WM client accounts have legacy positions in the Plumb Funds, which are managed by SVA WM's former affiliated adviser, Wisconsin Capital Management, LLC ("WisCap"). SVA WM has a long-standing relationship with WisCap's President, who previously served as SVA WM's CEO, and WisCap has a business relationship with SVA WM's affiliated trust company, SVA Plumb Trust Company, LLC. Additionally, SVA Plumb Trust Company, LLC receives 12b-1 fees for subscriptions to these mutual funds by SVA WM clients. The above conditions create a conflict of interest for SVA WM as SVA Plumb Trust Company has incentive to retain positions in WisCap's mutual funds. When deciding whether to sell or hold WisCap's mutual funds in client accounts, SVA WM subjects these funds to its normal investment process, policies and procedures, which serves to mitigate this conflict of interest. Additionally, SVA WM has policies and procedures, including a Code of Ethics and Personal Trading Policy, which requires the interest of clients to be placed ahead of all other interests.

Subsequent to selecting mutual funds for inclusion in a model, SVA WM performs ongoing due diligence of the selected funds, including funds managed by WisCap, with the objective of ensuring the funds selected remain the most appropriate to achieve the investment strategy, replacing such funds as necessary.

INVESTMENT STRATEGY FOR INDIVIDUAL SECURITIES

SVA WM looks for growing companies and those that demonstrate a competitive advantage among industry peers that fall into predetermined investable themes. SVA WM strives to purchase securities at reasonable prices with an emphasis on identifying market inefficiencies and a goal of outperforming over entire business cycles. SVA WM believes analyzing and taking advantage of long-term investable themes, including organizations with sustained revenue and profit growth, produces an attractive risk-adjusted return for its clients.

SVA WM seeks to invest in a diversified portfolio of companies that meet its investment criteria. SVA WM uses fundamental analysis and a total return investment strategy to identify companies whose stocks may offer positive risk adjusted returns over an investment cycle. SVA WM estimates price targets based on fundamental analysis that includes analysis of the firm's balance sheet, cash flow and income statements, and beliefs about the competitive environment, product sustainability, market power,

and the quality of firm's management. SVA WM couples its fundamental work with an analysis of the structural trends faced by the industry at both a micro and macro level. This is because SVA WM believes even the best companies are influenced by such trends. SVA WM typically invests in the securities of U.S. companies, but may also invest in foreign companies, usually through the purchase of American depository receipts ("ADRs") and foreign companies that are dual listed on U.S. stock exchanges.

Depending on the client's investment objectives, risk tolerance, and market opportunities, SVA WM supplements its equity investments with fixed income investments and other securities suitable for the client. Fixed income investments typically include investment grade bonds and government securities. In SVA WM's experience, fixed income securities and other investments purchased with a similar research-focused approach can augment an investor's returns and reduce portfolio volatility. SVA WM offers model portfolios that vary in the amount allocated to equities, fixed income investments, cash, and specialty or hybrid investments, and may consist of a diversified mix of individual securities, managed institutional mutual funds, and/or exchange-traded funds. SVA also offers an ESG model strategy for clients who wish to invest in such a strategy. Investments in client accounts may include the following:

- Equities / stocks
- Fixed income / bonds
- Cash equivalents / money market funds
- Preferred stocks, convertible bonds, and convertible preferred stocks
- Real estate investment trusts ("REITs"), royalty trusts
- American depository receipts
- Index funds / Exchange-Traded Funds
- Exchange Traded Notes
- Mutual funds
- Interval funds
- Variable annuities

As part of the client's investment management plan, SVA WM attempts to reduce the potential tax exposure through asset allocation and selection. Clients' specific investments depend on such factors as the client's particular tax situation, risk tolerance, time horizon, and account size. SVA WM generally seeks to purchase securities with a long-term investment horizon.

SVA WM utilizes macro-economic and/or fundamental investment research in order to select investments for client accounts.

Third-Party Manager Analysis: SVA WM examines the experience, expertise, investment philosophies, investment monitoring process and past performance of the independent third-party investment manager in an attempt to determine if that manager has demonstrated an ability to invest over a period-of-time and in different economic conditions. Additionally, as part of our due diligence process, we review aspects of the third-party manager's operations and compliance policies and procedures, as appropriate.

RISK OF LOSS

SVA WM's approach to investment management emphasizes diversification to mitigate and manage risk. Diversification includes geographic concentration, investment style, capitalization of underlying investments, investment vehicle, as well as the maturity credit quality and geographic exposure to income funds. While all investments involve some risk, including loss of capital and purchasing power, SVA WM endeavors to diversify not only asset classes and sectors, but philosophies and strategies as well, to broaden participation in advancing markets and reduce portfolio volatility.

Model due diligence generally encompasses cyclical, fundamental, technical, quantitative and qualitative input. Each component of these research inputs have weaknesses and risks associated with them, outside of the risks posed by specific asset classes or sectors in general. By accentuating global diversification of assets and multi-faceted models, SVA WM hopes to reduce risk in a manner that still produces positive returns over the long term.

From time to time, SVA WM invests in defensive positions or securities that are inconsistent with a portfolio's main investment strategy in an attempt to respond to adverse market, economic, political, or other conditions in the macro environment. Variations in investment strategy may impact the portfolio's ability to achieve its stated investment objective.

SVA WM's selected investments are subject to risks involved with investing that clients should be prepared to bear, including the possible loss of some or the entire principal amount invested. There is no guarantee that the investments will appreciate during the time that you hold them and some or all may depreciate in price.

SVA WM generally uses investment strategies when managing client assets and/or providing investment advice subject to the following associated risks:

ETFs and Mutual Funds Risk. Depending on the mutual fund or ETF, underlying investments in specialty or hybrid investment vehicles, and/or derivatives, may be more volatile and less liquid than other investments, and may employ leverage, which could magnify the vehicles' gains and losses. Where mutual funds or ETFs are designed to obtain investment results that correspond generally to price and yield performance of a particular index, there is no assurance that the investment returns will match the index returns it aims to replicate. Investments in ETFs are subject to different risks than investments in mutual funds, as some of these instruments do not issue and redeem shares on a continuous basis, potentially making those specific ETFs less liquid than open-end mutual funds.

Interval Fund Risk. Depending on the interval fund, underlying investments in specialty or hybrid investment vehicles, and/or derivatives, may be more volatile and less liquid than other investments, and may employ leverage, which could magnify the vehicles' gains and losses. Additionally, interval funds are generally considered to be closed-end funds and are less liquid than open-end mutual funds because they only allow shares to be purchased and sold at certain intervals. Although rare, interval funds can also postpone the repurchase of shares, shares may not be fully redeemed or the interval fund may have limited capacity and not be able to fulfill purchase orders.

Fixed Income Risk. A fixed income security's market value is affected significantly by changes in interest rates – generally, when interest rates rise, a fixed income security's market value declines and when

interest rates decline, its market value rises. Generally, a fixed income security with a longer maturity will entail greater interest rate risk but have a higher yield. Conversely, a fixed income security with a shorter maturity will entail less interest rate risk but have a lower yield. The market value of a fixed income security may also be affected by credit risk due to changes in its credit quality rating or the issuer's financial condition.

ETNs. ETNs are also subject to credit risk, including the risk that the issuer of the ETN may default on its obligations. The value of an ETN may vary and may be influenced by, among other things, the time to maturity, level of supply and demand for the ETN, volatility and lack of liquidity in underlying markets, changes in the applicable interest rates, changes in the issuer's credit rating, and economic, legal, political, or geographic events that affect the particular index. The value of the ETN may drop due to a downgrade in the issuer's credit rating, despite the underlying index remaining unchanged.

Real Estate Investment Trusts ("REITs"). Equity REITs invest directly in real property while mortgage REITs invest in mortgages on real property. REITs may be subject to certain risks associated with the direct ownership of real estate, including declines in the value of real estate, risks related to general and local economic conditions, overbuilding and increased competition, increases in property taxes and operating expenses, fluctuations in interest rates, and variations in rental income. In addition, the failure of a REIT to qualify as such for tax purposes would have an adverse impact on the value of the participating client's investment in that REIT. Some REITs have relatively small market capitalizations, which could increase their market volatility. REITs tend to be dependent on specialized management skills and may have limited diversification, causing them to be subject to risks inherent in operating and financing a limited number of properties.

Market Risk. The market value of a security may decline due to general market conditions that are not specifically related to a particular company, or because of factors that affect general economic conditions of the market as a whole.

Individual Security Selection Risk. Securities selected as portfolio investments for our clients may decline due to events unique to the individual security. Such events include, but are not limited to, changes in a company's business or credit outlook, its geographic exposure, events at competitor companies and changes in government policy or regulatory environment.

Sector Risk. Sector risk is the possibility that securities within the same industry will decline in price due to sector-specific market or economic developments. Government regulation or technological changes often influence specific industry characteristics and profitability. Although SVA WM seeks to invest in a diversified portfolio of securities, it is often the case that the company finds numerous attractive investments within a particular industry sector. In such cases, SVA WM may choose to overweight a particular sector, relative to the weightings in the S&P 500 Index. Such overweighting exposes the portfolios to risks specific to that industry that may not be correlated with the overall market.

Foreign Securities. Although SVA WM invests primarily in securities priced in U.S. dollars and traded on U.S. exchanges or issued by U.S. mutual fund companies, it may from time to time invest in foreign securities. To the extent SVA WM invests in foreign securities, such investments will be subject to special risks, including exposure to currency fluctuations, less liquidity, less developed or less efficient trading markets, lack of comprehensive company information, political instability and differing auditing and legal standards.

Credit Risk. The value of a client's investments in fixed income securities is dependent upon SVA WM's analysis of a number of factors, including the underlying credit worthiness of the issuer. A reduction in the credit worthiness of the fixed income instrument's issuer or negative perception of the issuer's ability to pay may result in a reduced price of the security and greater risk of principal loss, and bankruptcy of the issuer may result in a total loss of principal.

ESG Risk. ESG model strategies have a more limited investable universe than other strategies which could have an adverse impact on the performance of a client's portfolio invested in such a strategy.

Cybersecurity Risk. SVA WM relies on information technology and electronic communications to conduct business, which subjects SVA WM and its clients to the risk of cyber incidents. While SVA WM has controls it believes are reasonably designed to protect against cyber incidents resulting in unauthorized access to confidential information or business disruptions, not all cyber incidents are preventable. Should a cyber-incident occur, it would likely have a negative impact on SVA WM and its clients.

Third Party Manager Risk. A risk investing with a third-party manager is we do not control the underlying investments in a third-party manager's portfolio. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the portfolio, making it a less suitable investment for our clients. Moreover, as we do not control the manager's daily business activities and compliance operations, it is possible that despite our due diligence efforts, the third-party manager may not have appropriate internal controls necessary to prevent business, regulatory or reputational deficiencies.

ITEM 9 – Disciplinary Information

Registered investment advisers are required to disclose all material facts regarding any legal or disciplinary events that would be material to the client's evaluation of SVA WM or the integrity of SVA WM's management. SVA WM has no information applicable to this Item.

ITEM 10 – Other Financial Industry Activities and Affiliations

SVA WM is owned by SVA Financial Group, LLC. SVA Financial Group, LLC is owned by Diversified Services of Wisconsin, Inc. which is owned by numerous shareholders of SVA CPA or an affiliated subsidiary.

SVA WM also has a number of affiliates, including:

- SVA Certified Public Accountants, S.C.
- SVA Consulting, LLC
- SVA Financial Services, LLC
- SVA Technology Services, LLC
- SVA Staffing Solutions, LLC
- SVA Plumb Trust Company, LLC

On an individual basis and based on our good faith judgment of a client's specific needs, SVA WM may recommend a client utilize an affiliate's services. Unless otherwise disclosed to the client, services provided by an affiliate are separate and distinct from the investment advisory services provided by SVA WM. Fees for such services are generally separate and distinct from the advisory fee charged by

SVA WM, with the exception of the joint billing situations disclosed in Item 5 and other exceptions, as agreed to by the client. In recommending an affiliate's services, SVA WM experiences conflicts of interest as a client utilizing an affiliate's services based upon SVA WM's recommendation will generate revenue for the affiliated subsidiary and, indirectly, benefit SVA WM as an affiliate. Further, as an affiliate, SVA WM's employees may receive referral fees from any or all of its affiliates related to SVA WM clients who use affiliated services. This scenario results in additional conflicts, as SVA WM's employees may have a direct financial incentive to refer clients to its affiliates.

Clients may be able to obtain comparable services from unaffiliated individuals and organizations at fees that may be higher or lower than the fees charged by SVA WM's affiliate. No client is obligated to utilize SVA WM's affiliates for any other services and clients can terminate their services with the affiliate at any time in accordance with their service agreement. Termination of the use of a SVA WM affiliated provider will not, as a matter of practice, have an impact on the level of service SVA WM provides its clients.

SVA WM has an affiliated licensed insurance intermediary, SVA Financial Services, LLC ("SVA FS") and SVA WM personnel may be separately licensed insurance intermediaries of SVA FS. Clients are assisted in evaluating their insurance needs by SVA WM professionals, and may be referred through SVA FS to an independent insurance agent for further consideration. SVA FS has a services agreement with an independent insurance agent and receives a flat fee from the agent for services provided, including, among other things, the referral of clients. Clients are under no obligation to purchase a product following a referral, or to engage the services of the independent insurance service provider.

Clients and prospective clients are encouraged to carefully consider the affiliations and conflicts of interest described above. Questions regarding the service of affiliates, the relationship between affiliates and the revenues earned may be directed to SVA WM by calling (608) 824-8800.

ITEM 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

SVA WM has adopted a Code of Ethics for all access persons of the firm describing its high standard of business conduct and fiduciary duty owed to its clients. The Code of Ethics includes provisions for maintaining confidentiality of client information, a prohibition on insider trading, restrictions on providing and accepting gifts or business entertainment, and personal securities trading procedures, among other things. All access persons (SVA WM employees and certain employees of SVA WM's affiliates) must acknowledge the terms of the Code of Ethics annually, or as amended.

SVA WM's Code of Ethics governs its access persons' personal securities trading activity. Access persons are permitted to buy and sell securities SVA WM also recommends to clients. The Code of Ethics is designed to provide reasonable assurance that the personal securities transactions, activities and interests of the access persons of SVA WM will not interfere with making decisions in the best interest of advisory clients and implementing such decisions. Under the Code of Ethics, certain classes of securities have been designated as exempt transactions, based upon a determination that these would not materially interfere with the best interest of SVA WM's clients. In addition, the Code of Ethics requires pre-clearance of certain transactions and restricts or prohibits trading in close proximity to trades in client accounts. Please see Item 12 for an overview of SVA WM's trade aggregation and allocation practices.

Nonetheless, because the Code of Ethics in some circumstances would permit access persons to invest in the same securities as clients, there is a possibility that employees might benefit from market activity by a client in a security held by an employee. Access persons' personal trading is monitored by SVA WM to address the conflicts arising from allowing its access persons to invest in the same securities as clients.

SVA WM's clients or prospective clients may request a copy of the firm's Code of Ethics by contacting Connie Redman, Chief Compliance Officer, at (608) 824-8800.

ITEM 12 – Brokerage Practices

The primary consideration in SVA WM's selection of brokers and dealers is prompt and efficient execution of orders so that SVA WM clients' total cost in each transaction is the most favorable and equitable under the circumstances. SVA WM selects the broker-dealer to be used with the objective of negotiating a combination of the most favorable commission and the best price obtainable given the market conditions and the nature of the specific account. The specific factors considered in selecting a broker-dealer to effect client transactions include: SVA WM knowledge of commission structure; broker-dealer knowledge of and dominance in specific markets, securities, and industries including investment idea generation; quality of execution including best price under the circumstances; the broker-dealer's ability to locate liquidity; the overall relationship of the broker-dealer with SVA WM including responsiveness and dependability; whether or not the broker-dealer has acceptable record keeping, administrative and settlement functions; financial condition of the broker-dealer; their inventory of fixed income securities; price(s) of available securities; the broker-dealer's reputation and integrity; and research services provided by the broker-dealer (as described in further detail below).

When placing orders for securities traded in a negotiated market, particularly government bonds and over-the-counter stocks, SVA WM may use the services of a broker ("introducing broker") rather than the primary dealers ("market makers") in the specific security. These introducing brokers process transaction orders from SVA WM by buying or selling securities through market makers in the securities. The introducing brokerage firms receive a commission. Although SVA WM has the ability to go directly to market makers for transaction executions and avoid the introducing broker-dealers' commission, SVA WM sometimes finds that use of introducing brokerage firms, particularly the broker associated with the client's account, is a convenient means to obtain efficient executions for client accounts. It is generally SVA WM's practice not to place orders directly with a market maker when the size of the order is small, when clients have directed SVA WM to use a particular broker-dealer, or when SVA WM believes security delivery delays could occur by use of a particular market maker brokerage firm. Use of brokerage firms other than the market maker may not result in best price to clients on a trade-by-trade basis.

SVA WM generally recommends that clients establish brokerage accounts with Schwab Advisor Services (formerly called Schwab Institutional), Schwab Retirement Plan Services or Charles Schwab Trust Company, divisions of Charles Schwab & Company, Inc. (collectively referred hereinafter as "Schwab") to maintain custody of clients' assets and to effect trades for their accounts. SVA WM is not affiliated with Schwab. Schwab provides SVA WM with access to its institutional trading and custody services, which are typically not available to Schwab retail investors. These services generally are available to registered investment advisers on an unsolicited basis, and are not otherwise contingent upon SVA WM committing to Schwab any specific amount of business (assets in custody or trading). Schwab's services

include brokerage, custody, research, and access to mutual funds and other investments that are otherwise generally available only to institutional investors or would require a significantly higher minimum initial investment.

For SVA WM client accounts maintained in its custody, Schwab generally does not charge separately for custody, but is compensated by account holders through commissions or other transaction-related fees for securities trades that are executed through Schwab or that settle into Schwab accounts.

Schwab also makes available other products and services that benefit SVA WM, but may not specifically benefit its clients' accounts. Some of these other products and services assist SVA WM in managing and administering clients' accounts. These include software and other technology that provide access to client account data (such as trade confirmations and account statements), facilitate trade execution, provide research, pricing information and other market data, facilitate payment of SVA WM's fees from client accounts, and assist with back-office functions, recordkeeping and client reporting. Many of these services generally may be used to service all or a substantial number of SVA WM's accounts, including accounts not maintained at Schwab.

Schwab also makes available other services intended to help SVA WM manage and further develop its business enterprise. These services may include consulting, publications and conferences on practice management, information technology, business succession, regulatory compliance and marketing. In addition, Schwab may make available, arrange and/or pay for these types of services rendered to SVA WM by independent third parties. Schwab may discount or waive fees it would otherwise charge for some of these services or pay all or a part of the fees of a third party providing these services to SVA WM. SVA WM endeavors to act in its clients' best interests. SVA WM's recommendation that clients maintain their assets in accounts at Schwab may be based in part on the benefit to SVA WM of the availability of some of the foregoing products and services and not solely on the nature, cost or quality of custody and brokerage services provided by Schwab, which may create a potential conflict of interest. While SVA WM encourages clients to consider the use of Schwab's services as we are able to manage an account at Schwab in an efficient manner, the decision of which custodian to choose rests with the client.

In addition to Schwab, in certain circumstances, we recommend the account custody and transaction execution services of other firms, such as TD Ameritrade, Inc.; Fidelity Brokerage Services, LLC; Fidelity Institutional Wealth Services; Monumental Life Insurance Company/Transamerica Insurance Group; Jefferson National Life Insurance Company; and Johnson Bank. These firms, and firms affiliated with them, carry client accounts on their records, process client transactions ordered by us, provide software and computer access to us for review of client positions, and may provide quotes or other data needed for the reports we prepare for clients. These services and products are provided to us at little or no cost. We believe that use of these firms is a convenient means of obtaining efficient transaction executions, account reference and reporting services for client account investment positions. However, receipt of such support services creates an inducement and conflict of interest for us since referring clients to any other firm may result in higher reporting and overhead costs. As noted above, SVA WM endeavors to act in its clients' best interests. SVA WM's recommendation that clients maintain their assets in accounts at a certain custodian may be based in part on the benefit to SVA WM of the availability of products and services and not solely on the nature, cost or quality of custody and brokerage services provided by the custodian, which may create a potential conflict of interest. SVA WM maintains a Code of Ethics and

Brokerage Selection and Best Execution policy to address these conflicts. While we may recommend clients use these firms, the decision of which custodian to choose rests with the client.

SOFT DOLLAR PRACTICES

SVA WM utilizes certain broker-dealers who provide research and brokerage services (“soft dollar” arrangements) in exchange for brokerage commissions. It is SVA WM’s policy to operate within the safe harbor of Section 28(e) of the Securities Exchange Act of 1934 when using client commissions to pay for research and brokerage services that assist in the management of client accounts. When such services are received in return for client brokerage commissions, SVA WM may cause clients to pay brokerage commissions in excess of the commissions another broker may have charged for executing similar transactions without providing such services. When this is the case SVA WM receives a benefit because it does not have to produce or pay for the research or services. Research services provided by broker-dealers using soft dollars may be used in servicing any or all SVA WM clients and such research products or services may not necessarily be used by SVA WM in connection with the accounts that paid commissions to the broker-dealer providing the products or services. SVA WM does not seek to allocate soft dollar benefits to client accounts proportionately to the soft dollar credits the accounts generate. SVA WM’s Brokerage & Soft Dollar Committee (the “Committee”) evaluates the price and quality of execution of SVA WM trades, including the value of research products and services obtained by SVA WM with client brokerage commissions. Research obtained may include sell side research (including access to broker-dealers’ research analysts), access to company management, invitations to investment conferences, electronic research services, best execution evaluation services, and market data services. SVA WM has an incentive to continue to place trades with selected research broker-dealers so SVA WM will continue to receive research products and services.

SVA WM may also utilize a selection of services for comparison of client portfolio information to various indices and analyze graphs and other data available to prepare for client meetings or to evaluate clients’ relative exposure to geographic, style and capitalization strategies. When such services are utilized for both research and non-research purposes SVA WM makes a good faith allocation between the research and non-research portion of these “mixed-use” items and pays for the non-research portions with its own funds. Because SVA WM derives a benefit itself from its soft dollar arrangements in the use and optimization of research products, it has a conflict of interest in using soft dollar credits for the services because it may not have derived the benefit absent its relationships with its clients. In addition, the allocation process performed by SVA WM in determining research and non-research use also creates a conflict of interest, as SVA WM has an incentive to assign a greater percentage of the mixed-use item as a research service.

SVA WM has an incentive to select or recommend a broker-dealer based on potential interest in receiving research, or other products or services, rather than its client’s interest in receiving most favorable execution. To mitigate SVA WM’s soft dollar conflicts, SVA WM maintains policies and procedures designed to ensure it selects brokers based on its fiduciary obligations, and not based on this conflict. The Committee also routinely reviews allocation of commissions to brokers and soft dollar matters including evaluating whether the value of soft dollar services received are reasonably equitable to the commissions paid.

CLIENT DIRECTED BROKERAGE

Certain clients direct us to use a specific broker-dealer to effect transactions in their accounts (“Directed Accounts”). Directed Accounts are generally subordinated in the trade rotation to Free Accounts (those accounts where SVA WM has full discretion to choose the broker-dealer to be used for execution of trades) and Broker-Custodian Accounts (as defined below).

SVA WM strives to get prompt and efficient execution of orders for clients who direct SVA WM to execute securities transactions through a particular broker-dealer. However, by directing brokerage to a specific broker-dealer the client is essentially waiving SVA WM’s duty to obtain best execution because it limits SVA WM’s ability to block the client’s orders with those of other clients to receive an average price for securities bought or sold or otherwise obtain best price and execution. When a client elects to direct its brokerage, the client may incur transaction costs and commissions that are higher, particularly if the client selects a full-service broker rather than a discount broker. The costs and commissions of a full-service brokerage account may be higher than other available brokerage arrangements, even after the brokerage firm’s rates have been discounted.

AGGREGATION AND ALLOCATION OF TRADE ORDERS

In order to provide for the fair treatment of all clients SVA WM strives to allocate investment opportunities among clients in a fair and equitable manner based on the characteristics and needs of the clients and the market conditions.

SVA WM may, when appropriate, aggregate trade orders and allocate trades among two or more client accounts in attempt to decrease brokerage transaction costs through volume discounts and lower commissions that are not available to smaller volume transactions. Aggregating trades or “blocking orders” also permits SVA WM to enter and exit securities markets on behalf of SVA WM in a more efficient and organized manner and attempt to obtain the best market pricing given the market conditions.

When a block order is filled (full or partial fill) at several prices through multiple trades, SVA WM calculates an average price for all trades executed, and all participants in the block trade receive the average price. Only trades executed within the block on the single day are combined for purposes of calculating the average price. For each block trade, SVA WM creates pre-allocation schedules of shares for each account included in the trade based upon the account value, target weight and current price. Once the aggregated trade is executed, the shares are allocated in-line with the pre-allocation schedule.

SVA WM generally allocates shares of partial fill equity trades to accounts included in a trade on a *pro-rata* basis based on the pre-allocation schedule. Although rare, interval funds may not have the capacity to fulfill all purchase orders and when an interval fund transaction is partially filled shares are allocated on a pro-rata basis based on the pre-allocation schedule. SVA WM considers shares to be allocated pro-rata if any difference from the exact proportion results from rounding off the number of securities allocated to any account to the next higher or lower round-lot figure.

When trading fixed income securities in block orders, securities will be allocated to accounts in accordance with the pre-allocation schedule when adequate volume is available. In the case where there is not enough volume to fill all fixed income client accounts participating in the block trade,

SVA WM allocates fixed income securities to accounts based on need; specifically, those accounts with excess cash and those accounts whose current investment allocation is out of line with the account's desired strategy.

SVA WM may apply common sense deviations to its standard allocation process, including the following circumstances:

1. Pro-rata allocation results in a de minimis number of shares;
2. An account is charged per trade transaction fees by its custodian, creating undue costs by executing trades over several days;
3. Extreme market volatility;
4. Cash limitations or excess cash;
5. Client specific investment restrictions;
6. Client's tax status;
7. Client direction or requirement to raise cash in the account; and
8. Common sense and equitable adjustments.

Mutual fund trades placed by SVA WM are generally not aggregated and are placed directly with the client's custodian. SVA WM does not execute trades in mutual funds on behalf of SVA Plumb Trust Company clients. SVA Plumb Trust Company executes such trades on behalf of their clients based on instruction from the applicable Wealth Consultant. Mutual fund trades placed by SVA Plumb Trust Company are generally not aggregated and are placed with the transfer agent of the applicable mutual fund.

LIMITATIONS ON ABILITY TO AGGREGATE TRADES

Limitations on SVA WM's ability to aggregate trades exist. SVA WM is not as readily able to include Directed Accounts or Restricted Accounts (as defined below), and potentially some Free Accounts and Broker-Custodian Accounts, as defined below, in block trades. These accounts direct trades to a specific broker-dealer or otherwise may have economic or operational considerations that prevent SVA WM from freely selecting the executing broker-dealer or placing a trade within the account at the same time as the other accounts making up the block.

CATEGORIZATION OF CLIENT ACCOUNTS

The client accounts of SVA WM and its affiliated companies are broadly categorized as follows:

Free Accounts. Free Accounts include SVA Plumb Trust Company, institutional clients, and certain bank custody accounts. These accounts provide the most flexibility and opportunity for aggregation.

Broker-Custodian Accounts. A number of SVA WM clients maintain their accounts at a Broker-Custodian (such as Fidelity or Schwab). These Broker-Custodians offer SVA WM's clients attractive brokerage rates and professional execution and services but may charge additional fees when trades are executed by another broker-dealer. In most instances, it is in the best interest of an account held in custody with a Broker-Custodian to aggregate trades with other accounts held at the same Broker-Custodian and execute substantially all transactions through that firm.

Directed Accounts. These are accounts of clients who have directed SVA WM to place trades through a specific broker-dealer and client accounts managed by SVA WM through wrap programs. Directed Accounts have limited opportunities for aggregation.

Restricted Accounts. These are accounts that have unique economical or operational considerations that must be addressed prior to making a trade in that account. SVA WM strives to aggregate these accounts with their corresponding block, but often their circumstances do not allow for this. Accounts may be considered restricted for various reasons, including:

- The client has requested that SVA WM provide them with notification as a courtesy prior to transacting a trade.
- An account may have special tax or cash flow situations which require specific consideration prior to transacting a trade.
- SVA WM is required to provide instructions to the trustees of certain retirement plan accounts to make trades in the retirement accounts. The trustee or plan administrator may have operational considerations included within its systems and processes which could delay the execution of these trades.
- Certain retirement plans/accounts are required to be on a specific trading platform which requires SVA WM to place trades for such accounts individually through the platform. In some cases the trading platforms utilized by these retirement plans/accounts have operational considerations, such as a limited trading window during market hours, which could delay the execution of these trades. These accounts typically hold and transact in mutual funds and are not blocked with other client trades.

GENERAL TRADING HIERARCHY AND ROTATION

SVA WM strives to execute trades for its client accounts utilizing a rotation which is designed to treat all client accounts fairly over time and does not favor one client over another. SVA WM generally maintains a trade rotation for SVA WM client accounts as described below.

When changes are made to an investment model, the trades are typically executed in one day. Accounts managed to the applicable model are generally executed as described below:

- a. First, Free Accounts and Broker-Custodian Accounts are executed in parity by aggregating trades in the same security into blocks (for example, a Free Account block, a Schwab Account block and a Fidelity Account block) and then randomly alternating the initiation of the block trades on the trading.
- b. Second, Directed Account trades are initiated on a random basis using a random order generator containing the names of the brokers through which the firm trades on behalf of SVA WM clients.
- c. Trades are placed for Restricted Accounts as soon as practically possible after the unique characteristic of that account has been reviewed and appropriate action determined. Such trades may be: (1) added to an active block trade; (2) traded at the same time as an existing block trade (if SVA WM's traders determine in their best judgment such trades are in the best interest of all accounts participating in the order); or (3) traded after completion of Free, Broker-Custodian and Directed Account block trades. SVA WM's objective in

incorporating trades of Restricted Accounts into its trading process is to be fair to all clients involved, while not delaying the execution of SVA WM's other accounts.

SVA WM generally rebalances all accounts to their applicable model twice each year. Trades to rebalance accounts typically take multiple days to complete due to the number of securities involved in the transactions. Trade rotation is determined randomly by Wealth Consultant. Accounts managed by each Wealth Consultant are then rotated following the same process used for Model Changes as described above. Each Trader works directly with a Wealth Consultant to rebalance their clients' accounts; as such, trades for client accounts managed by different Wealth Consultant may be placed simultaneously by different Traders.

When clients deposit additional funds, or need to withdraw money from their account(s), trades are executed as instructed by the Wealth Consultant. The trading desk performs a periodic review of open trades to identify opportunities to block client trades.

DEPARTURES FROM THE GENERAL TRADING HIERARCHY

Traders are authorized by the Investment Committee to depart from the General Trading Hierarchy when in the Trader's good-faith determination departing from the hierarchy will be in the best interest of all accounts participating in the block. For example, two members of the trading department may simultaneously enter trades for Free and Schwab accounts if the market is liquid and the effect or risk of "working against yourself" is low.

RETIREMENT ACCOUNTS

SVA WM clients maintain retirement accounts whereby the clients' routine contributions are invested by the plan administrator according to an asset allocation model as determined by SVA WM. When SVA WM makes the determination to change the allocation or the securities within the allocation, it provides notice to the plan sponsor or its agent of the amended investment allocation on a timely basis after determining the change. Due to operational considerations with the plan administrator, adjusting the securities within an allocation on a large scale can be time intensive and, in SVA WM's experience, the plan administrator is unable to effect adjustments on a simultaneous basis for all SVA WM clients. Additionally, it is SVA WM's belief that the asset allocation, rather than the underlying securities, is most instrumental in driving long-term performance of retirement accounts; therefore, the timing of rebalancing the individual securities making up an allocation will not significantly affect performance from one retirement account to another over time.

ANNUITY ACCOUNTS

SVA WM includes annuities in client accounts where utilizing these instruments is deemed to be appropriate in achieving the clients' overall investment objectives. When SVA WM determines it is in the best interests of its clients to change the amount, type, or underlying investment allocation of annuities within clients' accounts, SVA WM provides instructions to change the allocation in all affected accounts at essentially the same time. The annuities used by these accounts are generally not included in the investment models used broadly by SVA WM.

INITIAL PUBLIC OFFERING AND PRIVATE PLACEMENT ALLOCATIONS

SVA WM does not frequently invest its clients in initial public offerings (“IPOs”) or private placement securities. To the extent SVA WM does invest its clients in an IPO or a private placement security, SVA WM uses the following procedures when allocating securities purchased as part of initial public offerings and private placements. SVA WM considers a variety of factors, including the investment objective and risk posture of the client’s account, cash available in an account, the current diversification in the client’s portfolio, the number of IPO or private placement securities available to allocate, and whether available IPO or private placement securities would be a material position for a client’s account.

When a broker-dealer selling securities in an IPO or private placement indicates that it will allocate securities only to client accounts which maintain custody at the broker-dealer, SVA WM will allocate available securities to those client accounts maintained at the broker-dealer, once it has determined that the securities are appropriate for the account(s). The use by a client of one brokerage firm rather than another often results in a client obtaining an IPO or private placement allocation advantage over other accounts because of the client’s relationship with the selling or underwriting broker-dealer.

A mutual fund or other substantial client account that generates commissions which result in an allocation of IPO or private placement securities from a broker-dealer should have the benefit of receiving those securities, taking precedence over other accounts where allocations of these securities is limited.

CROSS TRANSACTIONS

SVA WM may effect a purchase and sale transaction between two client accounts (a “cross” trade) where it determines a cross trade is in the best interest of each participating client and no client is deemed to be disadvantaged by the transaction. If a broker-dealer is used to facilitate settlement, the client will generally incur a customary, nominal flat fee to be paid to the broker-dealer. SVA WM applies an independent market price in each cross transaction, and does not receive any fee or other compensation, other than their advisory fees, for effecting a cross transaction. ERISA accounts managed by SVA WM are generally not eligible to participate in cross transactions.

TRADE ERROR CORRECTION

As part of its internal policies and procedures, SVA WM maintains a Trade Error Correction Policy to address trade errors that may occur in a client account. SVA WM considers a trade error to be an unintentional mistake, such as purchasing instead of selling a security, purchasing (or selling) an incorrect amount of a security, or purchasing (or selling) a security contrary to an applicable client guideline. SVA WM strives to correct all trade errors within a reasonable period of time following discovery of the error by reversing the original action that caused the error or running the error through a trade error account at the custodian. SVA WM does not use commissions from other client accounts to correct trade errors.

It is SVA WM’s policy for clients to be made whole following a trade error. SVA WM will pay as appropriate to make the client account whole, unless the executing broker’s policy is to absorb de minimis (e.g., under \$100) losses. To the extent an executing broker independently determines to absorb a de minimis loss arising from a trade error caused by SVA WM, the broker will not be compensated for the loss with brokerage business. If the trade error results in a gain, the investment

gain will remain in the client's account so the client may keep that gain, unless: (1) it is not permissible for the client to retain the gain; (2) upon conferring with the client, the client decides to forego the gain; or (3) the executing broker's policy is to retain de minimis (e.g., under \$100) gains.

Addressing trade errors presents a true conflict to all advisers, including SVA WM, as advisers have a financial incentive to minimize a trade error resulting in a loss and to maximize a trade error resulting in a gain. To mitigate this conflict, SVA WM maintains policies and procedures designed to provide reasonable assurance trade errors are properly addressed. In addition, SVA WM routinely monitors trade errors.

ITEM 13 – Review of Accounts

It is important that you discuss any changes in your financial objectives, circumstances, or risk profile with your Wealth Consultant. Your designated Wealth Consultant reviews your accounts on a periodic basis, including holdings to determine that recommended transactions continue to be suitable based on general guidelines set up at the inception of the adviser-client relationship; written agreements; correspondence; or changes in life circumstances. Reviews are also performed at the client's request, when changes in the market or economic trends warrant it, after a client communicates a change in objective, and/or at the discretion of the Wealth Consultant.

In conjunction with your Wealth Consultant, the Portfolio Management Committee conducts reviews of client account objectives, asset class exposures and risk tolerance parameters on a regular basis. Final decisions regarding investments in each account are left to the judgment of your Wealth Consultant.

Unless otherwise requested by the client, SVA WM provides reports at least quarterly showing the securities held, current market value of the securities and detail describing the performance of the account. Clients using an affiliated Trust Company receive account statements no less than quarterly from the Trust Company, unless otherwise requested by the client.

ITEM 14 – Client Referrals and Other Compensation

SCHWAB

SVA WM receives client referrals from Schwab through SVA WM's participation in Schwab Advisor Network[®] ("the Service"). The Service is designed to help investors find an independent investment advisor. Schwab is a broker-dealer independent of and unaffiliated with SVA WM. Schwab does not supervise SVA WM and has no responsibility for SVA WM's management of clients' portfolios or Advisor's other advice or services. SVA WM pays Schwab fees to receive client referrals through the Service. This arrangement is intended to comply with the requirements of Rule 206(4)-3 under the Advisers Act. Generally, these requirements require the referring person/firm to have a written agreement with SVA WM and provide each client with a disclosure document describing the fees it receives from SVA WM, whether those fees represent an increase in fees that SVA WM would otherwise charge the client, and whether it is affiliated with SVA WM. SVA WM's participation in the Service may raise potential conflicts of interest described below.

SVA WM pays Schwab a Participation Fee on all referred clients' accounts that are maintained in custody at Schwab and a Non-Schwab Custody Fee on all accounts that are maintained at, or transferred to, another custodian. The Participation Fee paid by SVA WM is a percentage of the fees the

client owes to SVA WM or a percentage of the value of the assets in the client's account, subject to a minimum Participation Fee. SVA WM pays Schwab the Participation Fee for so long as the referred client's account remains in custody at Schwab. The Participation Fee is billed to SVA WM quarterly and may be increased, decreased, or waived by Schwab from time to time. The Participation Fee is paid by SVA WM and not by the client. SVA WM has agreed not to charge clients referred through the Service fees or costs greater than the fees or costs SVA WM charges clients with similar portfolios who were not referred through the Service.

SVA WM generally pays Schwab a Non-Schwab Custody Fee if custody of a referred client's account is not maintained by, or assets in the account are transferred from, Schwab. This fee does not apply if the client was responsible for the decision not to maintain custody at Schwab. The Non-Schwab Custody Fee is a one-time payment equal to a percentage of the assets placed with a custodian other than Schwab. The Non-Schwab Custody Fee is higher than the Participation Fees SVA WM generally would pay in a single year. Thus, SVA WM will have an incentive to recommend that client accounts be held in custody at Schwab.

The Participation and Non-Schwab Custody Fees will be based on assets in accounts of SVA WM's clients who were referred by Schwab and those referred clients' family members living in the same household. Thus, SVA WM will have incentives to encourage household members of clients referred through the program to maintain custody of their accounts and execute transactions at Schwab and to instruct Schwab to debit SVA WM's fees directly from the accounts. For accounts of SVA WM's clients maintained in custody at Schwab, Schwab will not charge the client separately for custody but will receive compensation from SVA WM's clients in the form of commissions or other transaction related compensation on securities trades executed through Schwab.

Schwab also will receive a fee (generally lower than the applicable commission on trades it executes) for clearance and settlement of trades executed through broker-dealers other than Schwab. Schwab's fees for trades executed at other broker-dealers are in addition to the other broker-dealers' fees. SVA WM may have an incentive to cause trades to be executed through Schwab rather than another broker-dealer. SVA WM nevertheless acknowledges its duty to seek best execution of trades for client accounts. Trades for client accounts held in custody at Schwab may be executed through a different broker-dealer than trades for SVA WM's other clients. Thus, trades for accounts held in custody at Schwab may be executed at different times and different prices than trades for other accounts that are executed at other broker-dealers.

SVA WM receives an economic benefit from Schwab in the form of the support products and services it makes available to us and other independent investment advisors that have clients' accounts maintained at Schwab. These products and services, how they benefit us, and the related conflicts of interest are described in Item 12, Brokerage Practices. The availability to SVA WM of Schwab's products and services is not based on SVA WM giving particular investment advice, such as buying particular securities for SVA WM clients.

TD AMERITRADE

SVA WM participates in the institutional adviser program ("the Program") offered by TD Ameritrade Institutional. SVA WM may recommend TD Ameritrade to clients for custody and brokerage services. TD Ameritrade Institutional is a division of TD Ameritrade Inc., member FINRA/SIPC/NFA ("TD

Ameritrade”), an unaffiliated SEC registered broker/dealer and FINRA member. TD Ameritrade offers to independent investment adviser’s services which include custody of securities, trade execution, clearance and settlement of transactions. SVA WM receives some benefits from TD Ameritrade through its participation in the Program.

There is no direct link between SVA WM’s participation in the program and the investment advice we give to our clients, although SVA WM receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving SVA WM participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to client accounts); the ability to have advisory fees deducted directly from client accounts; access to an electronic communications network for client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to SVA WM by third-party vendors. TD Ameritrade may also have paid for business consulting and professional services received by Adviser’s related persons. Some of the products and services made available by TD Ameritrade through the program may benefit SVA WM but may not benefit its client accounts. These products or services may assist SVA WM in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help SVA WM manage and further develop its business enterprise. The benefits received by SVA WM or its personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. SVA WM endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by SVA WM or its related persons in and of itself creates a potential conflict of interest and may indirectly influence SVA WM’s choice of TD Ameritrade for custody and brokerage services.

SVA WM considers a number of factors in selecting brokers and custodians at which to locate its client accounts, including, but not limited to, execution capability, experience and financial stability, reputation and the quality of services provided.

SOLICITATION ARRANGEMENTS

Employees of SVA WM, affiliates of SVA WM, or employees of SVA WM’s affiliates may receive compensation for referring client accounts to SVA WM. SVA WM also engages independent contractors, subject to a formal solicitation agreement, who are registered representatives of SVA WM to refer clients to SVA WM. These arrangements create a conflict of interest as individuals may have a direct financial incentive to refer prospects to SVA WM. Prospects are under no obligation to utilize SVA WM for investment management services.

SVA WM also enters into written solicitation arrangements whereby SVA WM pays a cash fee to an unaffiliated third party for making client referrals in accordance with Rule 206(4)-3 under the Investment Advisers Act of 1940, as amended. These arrangements present a conflict of interest because the payments induce the solicitor to recommend SVA WM to a client when the solicitor might not otherwise do so if there was no payment. Prior to signing a contract with SVA WM, clients referred by third parties

are provided with information describing the nature of these payments. Such payments do not impact the advisory fee paid to SVA WM by the client.

OTHER GENERAL ARRANGEMENTS

When providing retirement plan services, SVA WM may recommend the record-keeping services (including administrative/trustee services) of third-party administrators. SVA WM is not affiliated with these third-party administrators and does not receive any compensation for recommending them to clients. SVA WM employees may attend conferences sponsored by third-party administrators and while in attendance employees are provided reasonable meals and entertainment. SVA WM maintains policies and procedures including a Code of Ethics, which requires employees and the firm to put client interests ahead of their own interests and the firm's interests and to report information related to conferences.

From time to time SVA WM hosts educational or social events for clients which are sponsored, fully or partially, by third-party vendors or sub-advisers. SVA WM is not affiliated with these third-party vendors or sub-advisers but may recommend the services of these entities to clients. Events may also be sponsored fully or partially by mutual funds that SVA WM recommends to clients. Event sponsorships create a conflict of interest for SVA WM because SVA WM may be inclined to continue recommending mutual fund investments or the services of third parties based on the financial support provided for client events. SVA WM believes the sponsorship activities are immaterial in nature and does not consider sponsorship activities when recommending mutual funds, vendors or sub-advisers to clients. SVA WM maintains policies and procedures including a Code of Ethics, which requires employees and the firm to put client interests ahead of their own interests and the firm's interests. Additionally, Wealth Consultants in conjunction with the Portfolio Management Committee provide oversight of client accounts through regular monitoring of client investments.

ITEM 15 – Custody

SVA WM maintains custody over client funds or securities by virtue of the fact that client assets may be held in custody at SVA Plumb Trust Company, LLC (the "Trust Company"), an affiliate of SVA WM. As a result, client assets held by the Trust Company are verified via an annual surprise exam by an independent public accountant registered with the Public Company Accounting Oversight Board ("PCAOB"). In addition, SVA WM annually obtains a written internal control report from the Trust Company prepared by an independent public accountant registered with PCAOB, stating: 1) the accountant's opinion as to whether controls in place at the Trust Company are suitably designed to meet control objectives related to custodial services; and 2) the accountant verified the funds and securities are reconciled by the Trust Company to a custodian other than the Trust Company (e.g., the Depository Trust Corporation).

In some instances, SVA WM is deemed to have custody of client assets due to access to client funds, or being able to access client accounts using client credentials on custodial or employer websites. These accounts are incorporated into the annual surprise audit the related accounts as required by the Investment Adviser's Act of 1940.

SVA WM is deemed to have custody over client accounts where the client has provided written authorization for fees to be deducted directly from the client's account. SVA WM is not required to

include such accounts in the annual surprise audit. SVA WM is also deemed to have custody over accounts where the client has a standing letter of authorization which allows SVA WM to transfer money to third parties on behalf of the client. Accounts with standing letters of authorization that meet certain requirements are not required to be included in SVA WM's annual surprise audit. SVA WM performs a review of accounts with standing letters of authorization to identify those accounts that are required to be included in the annual surprise audit.

Clients should receive at least quarterly statements from the broker-dealer, bank or other qualified custodian that holds and maintains client's investment assets. SVA WM encourages you to review these statements carefully. Your account information contained within SVA WM statements is derived from sources deemed to be accurate, but its accuracy cannot be guaranteed as statements provided by your custodian represent the true record of your account holdings and activity. SVA WM encourages you to compare information contained in its reports to reports provided by your custodian. Further, you should not rely on information contained within SVA WM statements for tax or legal purposes; rather, it is recommended you rely upon information provided by your custodian for these purposes. Clients are encouraged to contact SVA WM with any questions regarding their account statements.

ITEM 16 - Investment Discretion

Clients generally grant discretionary authority to SVA WM via the investment management agreement to select the identity and amount of securities to be bought or sold and determine when the securities should be bought and sold.

When selecting securities and determining amounts, SVA WM observes the investment policies, limitations and restrictions of the clients for which it advises.

SVA WM occasionally provides investment advice, recommendations and non-discretionary investment management for some retirement plans and corporate clients who wish to retain management control and investment discretion on their investment accounts. These services are negotiated on a case-by-case basis.

ITEM 17 – Voting Client Securities

SVA WM, as a matter of policy and practice, may have the authority to vote proxies on behalf of its advisory clients. The firm offers assistance with proxy matters upon a client's request. Clients are responsible for instructing their custodian to forward copies of all proxy and shareholder communications relating to the client's investment assets 1) to SVA WM if the client elects SVA WM to vote proxies on their behalf, or 2) to the client, if the client wishes to retain proxy-voting authority. Currently, the firm votes proxies for certain legacy retirement plans but does not offer proxy-voting services to new retirement plan clients.

In instances where the client authorizes SVA WM to vote its proxies, SVA WM strives to vote all proxies in the best economic interests of its clients. The policies and procedures do not apply to those situations where the client has retained voting discretion. SVA WM votes proxies for clients pursuant to the authority granted in the investment management agreement between SVA WM and its client, or as granted by written direction from each client. SVA WM's Proxy Review Committee is responsible for ensuring that proxies are voted in accordance with SVA WM's policies.

In general, proxies are voted in a manner designed to maximize the value of client investments. In evaluating a particular proxy proposal, SVA WM takes into consideration, among other things, management's assertions regarding the proxy proposal, SVA WM's determination of how the proxy proposal will impact its clients and SVA WM's determination of whether the proxy proposal will create dilution for shareholders.

Generally, it is SVA WM's policy to vote in support of management's recommendations on proxy issues related to business operations matters since management's ability is a key factor SVA WM considers in selecting equity securities for client portfolios. SVA WM believes a company's management should generally have the latitude to make decisions related to the company's business operations. However, when SVA WM believes the company's management is acting in a manner inconsistent with its clients' best interests, SVA WM will vote against management's recommendations.

SVA WM has a duty to recognize a material conflict and to resolve the conflict before voting the proxy. For purposes of proxy voting, material conflicts of interest are defined as those conflicts that, in the opinion of the Proxy Review Committee, a reasonable investor would view as important in making a decision as to how to vote a proxy. Upon identification of a material conflict of interest relating to a specific proxy vote, the Proxy Review Committee will take any action deemed appropriate to ensure the proxy voting decision is based on the client's best interests and is not a result of the conflict, including:

1. Referring the proxy to a client or to a representative of the client for voting purposes; or
2. Disclosing the conflict to the affected clients and seek their consent to vote the proxy prior to casting the vote.

The Proxy Review Committee has established base guidelines for voting proxies. The Proxy Review Committee reviews the firm's base guidelines on a periodic basis. From time to time, the Portfolio Manager or Wealth Consultant responsible to review a specific proxy proposal may desire to vote contrary to the firm's base guidelines. Under such circumstances the Portfolio Manager or Wealth Consultant will consult with the Proxy Review Committee, who will review relevant information and determine whether to deviate from the applicable base proxy voting guideline.

Clients may obtain a copy of SVA WM's complete proxy voting policies and procedures upon request. Clients may also obtain information from SVA WM regarding how it voted proxies on behalf of their account(s) by calling (608) 824-8800.

ITEM 18 – Financial Information

Registered Investment Advisers are required in this item to provide you with certain financial information or disclosures. SVA WM has no financial commitment that impairs its ability to meet contractual and fiduciary commitments to clients, and has not been the subject of a bankruptcy proceeding.

Exhibit A – Privacy Notice

Our Promise to You

As a client of SVA Wealth Management, LLC (“SVA WM”), you share both personal and financial information with us. Please read this notice carefully to understand what we do with your information, and know your privacy is important to us; we are dedicated to safeguarding your personal and financial information.

Information Provided by Clients

In the normal course of doing business and depending on the product or service you have with us, we may obtain non-public personal information about you. This information can include:

- Name, address, social security number, and date of birth;
- Information regarding securities transactions effected by us;
- Financial information such as net-worth, assets, income, bank account information, personal income tax information, and account balances;
- Information we receive from custodians with respect to your account(s); and
- Information received from service bureaus or other third parties.

How We Manage and Protect Your Personal Information

SVA WM shares personal information for our everyday business purposes, such as to process your transactions, maintain your account(s), respond to court orders and legal investigations, or report to credit bureaus. Also, we may share information with outside companies that perform administrative duties for us. However, our arrangements with these service providers require them to treat your information as confidential. Personal information, such as information about your transactions and experiences, is also shared with our affiliates¹ for everyday business purposes. SVA WM does not share your personal information about your creditworthiness with our affiliates.

SVA WM believes that our ability to provide information about services offered by us and our affiliates enables us to more effectively serve our customers. Therefore, with your prior authorization, SVA WM may send you marketing materials about us or any SVA WM affiliate. SVA WM does not share your personal information for non-affiliates to market to you.

In order to protect your personal information, we maintain physical, electronic, and procedural safeguards to protect your personal information.

Client Notifications

If we change our Privacy Policy with regard to sharing your confidential information, we are required by law to notify you and provide you a revised notice. Thank you for allowing us to serve you. We value your business and are committed to protecting your privacy. We hope you view our firm as your most trusted adviser, and we will work to continue earning your trust. Please do not hesitate to contact us with questions about this notice.

¹For the purpose of this privacy notice, affiliates of SVA WM are SVA Financial Group, LLC; SVA Plumb Trust Company, LLC (South Dakota); SVA Financial Services, LLC; SVA Certified Public Accountants, S.C. and its related entities: SVA Consulting, LLC; SVA Technology Services, LLC; and SVA Staffing Solutions, LLC.

Item 1- Brochure Supplement

Timothy R. O'Brien, CFA
SVA Wealth Management, LLC
1221 John Q. Hammons Drive, Madison, Wisconsin 53717
Phone: (608) 824-8800
April 1, 2019

This Brochure Supplement provides information about Timothy R. O'Brien that supplements SVA Wealth Management, LLC's ("SVA WM") Disclosure Brochure. You should have received a copy of that Brochure. Please contact Connie M. Redman, Chief Compliance Officer, if you did not receive SVA WM's Disclosure Brochure or if you have any questions about the contents of this supplement.

Additional information about Timothy R. O'Brien is available on the SEC's website at www.adviserinfo.sec.gov.

Item 2- Educational Background and Business Experience

Timothy R. O'Brien was born June 8, 1959, and received a Bachelor of Arts degree from the University of Notre Dame in 1981. He also received a Master of Arts degree from Webster PP College in St. Louis, Missouri in 1988 and a Master of Business Administration degree from the University of Chicago in 1996. Mr. O'Brien is an Investment Adviser Representative (Adviser) NASAA Series 65 and holds the Chartered Financial Analyst designation.

Mr. O'Brien is a Vice President and Principal of SVA WM. He also serves as the Director of Research for the firm and provides portfolio management for individual and institutional accounts. He is a member of SVA WM's Investment Committee. The Investment Committee oversees investment allocations, and reviews stocks, fixed income and other specific securities to be utilized in client portfolios.

Item 3- Disciplinary Information

None

Item 4- Other Business Activities

None

Item 5- Additional Compensation

Mr. O'Brien is entitled to receive distributions of profits and cash distributions through his ownership interest in SVA WM.

Item 6 - Supervision

Mr. O'Brien reports to Maureen Hansen, President of SVA WM. His business activities related to providing investment advice are monitored during committee meetings held to discuss accounts. Ms. Hansen can be reached at (262) 641-6888. Additionally, he is subject to the policies and procedures of SVA WM.

NASAA Uniform Investment Adviser Law Examination (Series 65)

The Series 65 Exam is administered by the Financial Industry Regulatory Authority (FINRA) on behalf of the North America Securities Administrators Association (NASAA). Completion of the Series 65 Exam will qualify an investment professional to operate as an Investment Adviser Representative (IAR). The exam focuses on topic areas that are important for an investment adviser to know when providing investment advice. These areas include topics such as retirement planning, portfolio management strategies, and fiduciary obligations.

Chartered Financial Analyst (CFA)

The program is a professional credential offered internationally by the CFA Institute to investment and financial professionals. The program covers a broad range of topics relating to investment management, financial analysis, stocks, bonds and derivatives, ethics, and provides a general knowledge of other areas of finance. To become a CFA, candidates must satisfy the following requirements: Four years (48 months) of qualified work experience (or a combination of education and work experience acceptable by the CFA Institute), completing the CFA Program (mastery of current CFA curriculum) and passing three six-hour examinations, become a member of the CFA Institute, and adhere to the CFA Institute Code of Ethics and Standards of Professional Conduct.

Item 1- Brochure Supplement

Brian H. Reamer, CFP[®], CFS[®], CRC[®], AIF[®], RICP[®]

SVA Wealth Management, LLC

Phone: (608) 824-8800

April 1, 2019

This Brochure Supplement provides information about Brian H. Reamer that supplements the SVA Wealth Management, LLC's ("SVA WM") Disclosure Brochure. You should have received a copy of that Disclosure Brochure. Please contact Connie M. Redman, Chief Compliance Officer, if you did not receive SVA WM's Disclosure Brochure or if you have any questions about the contents of this supplement.

Additional information about Brian H. Reamer is available on the SEC's website at www.adviserinfo.sec.gov.

Item 2- Educational Background and Business Experience

Brian H. Reamer was born January 28, 1965, and received a Bachelor of Business Administration-Finance Degree from the University of Wisconsin – Whitewater in 1987. Mr. Reamer is an Investment Adviser Representative (Adviser) NASAA Series 65 and holds the designations of Certified Financial Planner[™], Certified Fund Specialist[®], Credit Risk Certification[®], Accredited Investment Fiduciary[®], and Retirement Income Certified Professional[™].

Mr. Reamer is a Principal of SVA WM. Mr. Reamer is responsible for wealth management, retirement plan consulting, portfolio management, asset allocation consulting, and review of stocks, fixed income securities and mutual funds. He is a member of SVA WM's Investment Committee. The Investment Committee oversees investment allocations and specific securities to be utilized in client portfolios.

Item 3- Disciplinary Information

None

Item 4- Other Business Activities

None

Item 5- Additional Compensation

Mr. Reamer receives additional cash compensation from SVA WM for his role in obtaining new clients for the firm, and as a participant of the corporate goals program.

Item 6 - Supervision

As a Principal of SVA WM, LLC, Mr. Reamer reports to Randell Godsell, Principal and Chief Investment Officer for SVA WM, who can be reached at (262) 641-6888. Additionally, he is subject to the policies and procedures of SVA WM.

Footnote

Investment Adviser Representative

Registration as an Investment Adviser Representative of a Registered Investment Adviser means that the Investment Adviser Representative has either passed a Series 65 examination, or passed both a Series 7 and Series 66, or has qualified by virtue of having one of the following professional designations: CFP, ChFC, PFS, CFA or CIC.

Certified Financial Planner™ (CFP®)

The program is administered by the Certified Financial Planner Board of Standards, Inc. Those with the CFP® designation have demonstrated competency in all areas of finance related to financial planning. Candidates complete studies on over 100 topics, including stocks, bonds, taxes, insurance, retirement planning and estate planning. In addition to passing the CFP® certification exam, candidates must also complete qualifying work experience and agree to adhere to the CFP Board's code of ethics and professional responsibility and financial planning standards.

Certified Fund Specialist® (CFS®)

Certified Fund Specialists have received certification from the Institute of Business and Finance (IBF) for their expertise in mutual funds and the mutual fund industry. Individuals must have a bachelor's degree or 2,000 hours of financial services work experience. A six-module self-study program provided by IBF is also a prerequisite for taking the exam. Once a CFS designation is obtained, an individual must complete 30 hours of continuing education every two years.

Certified Retirement Counselor® (CRC®)

The CRC designation, awarded by the International Foundation for Retirement Education, demonstrates a concentration on all aspects of personal financial planning and investment advice relating to retirement. CRC designees must complete six steps to earn the designation by successfully completing four modules on retirement planning, including Fundamentals of Retirement Planning; Fundamentals of Investments; Fundamentals of Retirement Income; and Fundamentals of Retirement Plan Design and pass a comprehensive and detailed written examination. Upon passing the examination they must complete annual continuing educational requirements and pledge to abide by the designation's Code of Ethics.

Accredited Investment Fiduciary® (AIF®)

This professional designation is administered by fi360. Candidates for the AIF designation are required to take a 90-minute closed-book accreditation exam that must be passed with 75% or better. Once the designation is obtained, individuals must sign and agree to a Code of Ethics and are required to complete six hours of continuing education annually.

Retirement Income Certified Professional® (RICP®)

The RICP designation is offered by the American College. Applicants must have three-plus years of relevant work experience, complete three courses (Retirement Income Process – Strategies and Solutions, Sources of Retirement Income and Managing the Retirement Income Plan) and pass a 100-question exam. RICP's must adhere to a code of ethics and complete 15 hours of continuing education every two years.

Item 1- Brochure Supplement

Maureen E. Hansen, CLU
SVA Wealth Management, LLC
18650 W. Corporate Drive, Suite 200, Brookfield, WI 53045

NASAA Uniform Investment Adviser Law Examination (Series 65)

The Series 65 Exam is administered by the Financial Industry Regulatory Authority (FINRA) on behalf of the North American Securities Administrators Association (NASAA). Completion of the Series 65 Exam will qualify an investment professional to operate as an Investment Adviser Representative (IAR). The exam focuses on topic areas that are important for an investment adviser to know when providing investment advice. These areas include topics such as retirement planning, portfolio management strategies, and fiduciary obligations.

Certified Public Accountant (CPA)

CPAs are licensed and regulated by their state boards of accountancy. While state laws and regulations vary, the education experience and testing requirements for licensure as a CPA general include minimum college education (typically 150 credit hours with at least a baccalaureate degree and a concentration in accounting). In order to maintain a CPA license, states generally require the completion of 40 hours of continuing professional education (CPE) each year (or 80 hours over a two-year period or 120 hours over a three-year period). Additionally, all American Institute of Certified Public Accountants (AICPA) members are required to follow a rigorous *Code of Professional Conduct* which requires they act with integrity, objectivity, due care, competence, fully disclose any conflicts of interest (and obtain client consent if a conflict exists), maintain client confidentiality, disclose to the client any commission or referral fees, and serve the public interest when providing financial services. In addition to the *Code of Professional Conduct*, AICPA members who provide personal financial planning services are required to follow the *Statement on Standards in Personal Financial Planning Services* (SSPFPS).

Chartered Financial Analyst (CFA)

The program is a professional credential offered internationally by the CFA Institute to investment and financial professionals. The program covers a broad range of topics relating to investment management, financial analysis, stocks, bonds and derivatives, ethics, and provides a general knowledge of other areas of finance. To become a CFA, candidates must satisfy the following requirements: Four years (48 months) of qualified work experience (or a combination of education and work experience acceptable by the CFA Institute), completing the CFA Program (mastery of current CFA curriculum) and passing three six-hour examinations, become a member of the CFA Institute, and adhere to the CFA Institute Code of Ethics and Standards of Professional Conduct.

Certified Financial Planner™ (CFP®)

The program is administered by the Certified Financial Planner Board of Standards, Inc. Those with the CFP® designation have demonstrated competency in all areas of finance related to financial planning. Candidates complete studies on over 100 topics, including stocks, bonds, taxes, insurance, retirement planning and estate planning. In addition to passing the CFP® certification exam, candidates must also complete qualifying work experience and agree to adhere to the CFP Board's code of ethics and professional responsibility and financial planning standards.

Item 1- Brochure Supplement

Robert Cummisford, CFA
SVA Wealth Management, LLC
1221 John Q. Hammons Drive, Madison, Wisconsin 53717
Phone: (608) 824-8800
April 1, 2019

This Brochure Supplement provides information about Robert Cummisford that supplements the SVA Wealth Management, LLC's ("SVA WM") Disclosure Brochure. You should have received a copy of that Disclosure Brochure. Please contact Connie M. Redman, Chief Compliance Officer, if you did not receive SVA WM's Disclosure Brochure or if you have any questions about the contents of this supplement.

Additional information about Robert Cummisford is available on the SEC's website at www.adviserinfo.sec.gov.

Item 2- Educational Background and Business Experience

Robert Cummisford was born April 30, 1968, and received a Bachelor's Degree in Behavioral Sciences and Economics, cum laude, from Lake Forest College in 1990. Mr. Cummisford is an Investment Adviser Representative (Adviser) and holds the designation of Chartered Financial Analyst.

Mr. Cummisford is a Senior Wealth and Portfolio Manager of SVA WM. His areas of expertise with SVA WM include wealth management, portfolio management, asset allocation consulting, and review of stocks, fixed income securities and mutual funds. He is a member of SVA WM's Investment Committee. The Investment Committee oversees investment allocations and specific securities to be utilized in client portfolios.

Item 3- Disciplinary Information

None

Item 4- Other Business Activities

None

Item 5- Additional Compensation

Mr. Cummisford receives additional cash compensation from SVA WM for his role in obtaining new clients for the firm, and as a participant of the corporate goals program.

Item 6 - Supervision

Mr. Cummisford reports to Randell Godsell, Principal and Chief Investment Officer for SVA WM, who can be reached at (262) 641-6888. Additionally, he is subject to the policies and procedures of SVA WM.

Footnote

Investment Adviser Representative

Registration as an Investment Adviser Representative of a Registered Investment Adviser means that the Investment Adviser Representative has either passed a Series 65 examination, or passed both a Series 7 and Series 66, or has qualified by virtue of having one of the following professional designations: CFP, ChFC, PFS, CFA or CIC.

Chartered Financial Analyst (CFA)

The program is a professional credential offered internationally by the CFA Institute to investment and financial professionals. The program covers a broad range of topics relating to investment management, financial analysis, stocks, bonds and derivatives, ethics, and provides a general knowledge of other areas of finance. To become a CFA, candidates must satisfy the following requirements: Four years (48 months) of qualified work experience (or a combination of education and work experience acceptable by the CFA Institute), completing the CFA Program (mastery of current CFA curriculum) and passing three six-hour examinations, become a member of the CFA Institute, and adhere to the CFA Institute Code of Ethics and Standards of Professional Conduct.
